

Jungle Safari

Supplies

- As many stuffed animals as you can find
- Flashlight (optional)

Set up

Have the players wait in a specified room of the house while the adults hide the stuffed animals around the house. Be sure to count how many animals you hide, so you can find them all when you are done.

Play

When all the animals are hidden, players go on a “safari” to find all the animals. For an added challenge, turn off all the lights in the house and have the players use flashlights.

Optional rules

1. Older players can race against each other to collect the most animals
2. Players can only carry one stuffed animal at a time, and must return it to a specified “safe zone” before collecting another animal
3. If playing with only one player, they can be given a time limit
